DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Leslie et al. (US 2,882,158).

The dye compound of dicyanomethylene derivative in Examples 21, 23 and 24 on col. 10 anticipates the claimed compound.

Claim Rejections - 35 USC § 112

3. Claims 7-8 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the liquid crystal dopant exemplified in the specification, does not reasonably provide enablement for the compounds other than the core structure in formula A. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims. See *In re Fisher* (CCPA 1970) 427 F2d 833, 166 USPQ 18. It states that failure to recite the complete structural formula of a product may render a claim thereto unduly broad and lacking adequate support in the specification. The claims are only have physical properties without citing any formula.

Art-Unit: 1756

Allowable Subject Matter

4. Claims 9-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references AC-AM are not in the file. Please provide each copy of these references.
